

Verified contact data

50¢

 PER CONTACT

What you get

A named decision-maker at each company you want to sell to — with a working email address, a job title and a phone number. Built to your definition of a buyer, in your trade and your territory, and verified against the receiving mail server before it reaches you.

What it costs

50¢ per contact. One rate at every volume — no tier to negotiate, no subscription and no platform fee. The minimum order is **5,000 contacts, \$2,500**. You are invoiced on the count actually delivered, not the count quoted.

How it arrives

Into a private workspace on our platform, with your own username and password. The list itself, a map of every company in it, and a call board your team works straight off. Export to CSV whenever you want it. The file and the login are yours to keep.

How you pay

Across one quarter, in three monthly instalments — \$2,500 is three payments of \$833.33, invoiced on the 1st of each month. By ACH or check with no surcharge, or by card with a 3% processing surcharge. Payable to Hale Outdoor Products, LLC.

Your login, on delivery day

Three screens from live client workspaces. Contact rows are blurred — they hold real people’s details.

THE DATA ITSELF

Every person the list can name, with how reachable each one is — and a download button for the whole file.

Call board 5

419 firms · \$831.5M
company revenue on this list

The money cannot be split evenly here: Tell Brothers alone is 71.4% of this segment (\$10,848), and an even five-way split needs no firm above 20%. The head count is exactly even — wherever holds that firm simply holds more of the money.

COMPANY SIZE

All sizes 2,090

Large 23

Medium 208

Small 1,007

832 firms on this board have no size signal at all; so they are at or near the top three bars (they still show under All sizes).

579 firms on this board have no phone number yet. The ladder pods were built to mail boards, and an email harvest does not collect web/borders — so a missing number means nobody has looked, not that the firm has none. Press [Find the number](#) on a row (or the button above for the whole page) and a Claude run on the office box reads the firm's own site and its 6s in.
